5) Superintendent's Report

- Two reports website (Dec&Jan)
- Great stuff at schools, anti-racism policy development, kindergarten registration by end of March, french immersion registration is also happening right now
- Lots of COVID stuff going on - potential signal indicator and proof of vaccination status
  - Potential signal indicator - Is based on attendance in classes or schools. SD8 will share data with Interior health (IH) and IH will follow up. Less than 75% attendance in

classes/schools will be communicated with families through the principals. It doesn't mean there is covid just that there is lower attendance. If IH determines that the school is highly active in terms of COVID they would provide direction to the school district.

- Proof of Vaccination announcement - After March 11 if not disclosed or not vaccinated will have to agree to regular tests or a special leave. It is an administrative procedure that does not apply to students or volunteers.

SD8 Guests Chandra Singh, Director of HR & Theresa Montpellier, Manager of HR

- Shared vision, mission for HR department, department functions, team values and team members.

BC CUPE Public Childcare Campaign/Seamless Day - Laura House

- Attending today in two capacities - a mom of two students at Winlaw and she is a CUPE member organizer in the role of public childcare.
- Childcare is a patch-work system and in general is a for-profit system in BC.
- Winlaw is now piloting a seamless day. It is on-site childcare at the schools and the employees are actually SD8 employees. This (seamless day through the SD) answers a lot of the questions around obstacles like location.
- SD8 does not have funding currently to extend this to all locations - it needs more government funding.
- Access this site to find out more information and email your trustee to support this initiative: [https://www.cupe.bc.ca/public\\_childcare\\_now](https://www.cupe.bc.ca/public_childcare_now)

- It is an open/public meeting but only the two DPAC reps have a voice during the meeting unless you speak during the time allotted for comments for the public.

### g) Added discussion about back to school

- Elementary school parents - feel that schools are doing what they can but parents are filling in the gaps when the schools cannot disclose,
- Middle school parents - no change with masks and cohort as it was already being done, it has felt relatively smooth, a field trip was being organized but was changed to include all students regardless of vaccination status
- Secondary parents - there is some stress about missed content but the teachers are managing it very well

- DPAC heard from a principal that the teachers/principals have had strong leadership from the superintendent and that is why there are no issues
